Profile

Motivated IT Engineering graduate with a strong passion for technology and continuous professional development. Currently advancing in Web development, equipped with hands-on experience in crafting comprehensive full-stack web applications. Seeking an entry-level opportunity to contribute to team success while expanding my knowledge and expertise in the field, with a strong commitment to supporting company growth and efficiency.

Education

Bachelor of Technology in Information Technology

Government Engineering College, Palakkad | 2020-2024

Relevant Courses: Object Oriented Programming, Data Structure, DBMS, Operating System

Cgpa: 6.73

Higher Secondary Education (Science)

Karimpuzha HSS | 2016-2018

Percentage: 96%

Experience

Web Developer Trainee | Sketchnet Creatives | January 2025- April 2025

Completed a full-stack web development internship focused on building a Learning Management System (LMS) using React.js and Django REST Framework. Contributed to key functionalities including user authentication with separate login for admins and users, course management, and a notification system. Collaborated closely with the team to design responsive user interfaces, integrate RESTful APIs, and ensure smooth data flow between the frontend and backend. Gained practical experience in real-world software development, version control with Git, and deployment using platforms like Vercel and Heroku.

Projects

Academic Projects

Eye Commerce - Main Project

Developed an eye-controlled cursor movement system for an e-commerce platform, enhancing accessibility for individuals with limited mobility by enabling navigation and purchase solely through eye movements

Hobby Projects

Yelp-Camp

YelpCamp is a web application developed using HTML, CSS, JavaScript, Express, Node.js, and MongoDB. It allows users to browse, add, and review campgrounds with integrated authentication

Image Search

Image Search is a web application that allows users to search for images by keywords, displaying relevant results using an external API. Built with HTML, CSS, JavaScript, and integrated with an image API for fetching data

iChat

iChat is a real-time chat application built using Node.js, Express, and Socket.io. It allows users to communicate instantly with each other in chat rooms

• Youtube Clone

Built a YouTube clone using React.js with key features like video playback, search, and a mobile-friendly design. Focused on creating a smooth user experience with well-organised components and effective data handling

Skills

• Frontend: Reactjs, HTML, CSS, JavaScript

Backend: Nodejs, Expressjs, Django

Database: MongoDBLanguages: Python, Java

• Tools: Git, Vercel

Certifications

- Internship Studio-Certificate of Internship in Website Design and Development
- Udemy-The Web Developer Bootcamp (HTML, CSS, JavaScript, MongoDB, NodeJS, ExpressJS, ReactJS), UX Fundamentals
- Revertech IT Solutions- Web Development Intern

Leadership and Volunteering

National Service Scheme (NSS) Volunteer - Participated in various community service projects, contributing to social welfare and development
